*Mr. Burke O. Fort, Director*  
8th Continent Project—Center for Space  
Resources

Colorado School of Mines  
1310 Maple St., Golden, CO 80401  
303-384-2096 or [burke.fort@8cproject.com](mailto:burke.fort@8cproject.com)

ADSC-Aerospace provides educational certifications, specialized training seminars, and hands-on workshops. ADSC-Aerospace supports these initiatives within a sustainable environment of industry and academic partnerships and mentoring programs that connect the targeted learning community to job readiness and post secondary education opportunities for career enhancement in the aerospace industry. ADSC-Aerospace leverages new and existing relationships in secondary education, higher education and industry and pursues support of the Academy through multi-faceted funding opportunities.

The ADSC-Aerospace community of practice includes Adams County Education Consortium, Arapahoe/Douglas Workforce Center, Colorado School of Mines' 8th Continent Project and Center for Space Resources, Community College of Denver, and Metropolitan State College of Denver. ADSC-Aerospace is a community open to stakeholders that share the goals of providing career paths, scholarship, internship, and mentoring opportunities.

If your organization has an interest in participating in the ADSC-Aerospace community of practice, please contact [Mr. Burke Fort](#) or [Dr. Jeffrey Forrest](#) today!

(STEM: Science, Technology, Engineering, & Math)
